

HABITAT

Snowy owl's main
breeding in Ireland is in
the north west in county
Mayo.

FOOD

Snowy owls like to eat mice, rats, small birds including robins.

IDENTITY

We also have our ears under our feathers and they aren't even with our eyes.

We have sharp long talons and our spots are all different.

Senses

The snowy owl has excellent hearing and sight. When they can't see their prey they rely on their hearing skills.

DESTRUCTION

They Snowy Owl's habitats are getting destroyed at the minute. That is not fair for them! Please leave their habitat alone. Let life have it's course.
